

**Subject:** Lake Piru

Randy/Sheri, and Jason

I wanted to contact you both to inform you that Lake Piru is currently closed, and we have no way of predicting when we may reopen. I realize you both have numerous Tournaments set for the month of August. Depending on how the counties positive cases numbers react in the next couple of weeks will dictate how we warrant lifting, or continuing of the current social distancing restrictions.

Following is United Water Conservation Districts official statement:

Due to the significant increase in corona virus cases over the past few weeks in Los Angeles and Ventura counties, United Water Conservation District is following local and state guidelines for restricting social interaction and is closing the Lake Piru Recreation Area for the foreseeable future. This includes camping, picnicking and all water recreation access.
